We have been given 3:45 to 4:30 on Monday for the briefing of the Administrator.

We will need to expedite prep of materials.

She will need an intro on CA water situation, current issues, and politics to give context. Current drought also as context. Then, the status and issues associated with BDCP. BDCP+if we think we can fit it in. Whether a briefing paper or Pwr Pt I leave to the preparers.

Roger, please coordinate a discussion of this for Thursday morning. We can loop in R9 once they open later in our day. I will participate.
